

## Critical Infrastructure/Worker Cert

Dear Colleague,

Following the announcement by An Taoiseach, Leo Varadkar, directing the citizens of Ireland to remain in their homes, I wish to reaffirm that Agriculture, food production and food supply are classified as 'essential' industries which are therefore exempt from the latest restrictions. This places a great responsibility on us to rise to the challenge of meeting our country's need to feed its people and enable our farmers to produce the required raw materials. Glanbia Ireland provides the essential inputs to our farmers and collects, processes and markets their food outputs. We are proud to play our part and will ensure we are not found wanting during this time of great uncertainty. In doing this, Glanbia Ireland continues to enhance its protocols and protections to ensure your utmost safety while at work. Thank you for your service to Glanbia and your country in this very challenging time.

### Certificate

The Irish Government in the COVID-19 National Action Plan has designated the food and agriculture sector, including dairy and specialised nutrition processing, as a 'critical services sector'.

As such, those involved in the production, processing, distribution, sale and delivery of food are 'protected workers' and are required to maintain work patterns.

This includes those working in our network of branches supplying feed and health products to ensure animal welfare is protected.

This document certifies that:

- a. This employee is carrying out a duty within a sector that has been designated as critical infrastructure, and/or
- b. This vehicle is transporting a shipment of food and agricultural related products (including lab specimens) within a sector that has been designated as critical infrastructure, the continued operation of which is vital for security, national economic security, national public health, and safety.

Accordingly, it is appropriate in light of the Government Action plan on COVID-19 to allow this employee/shipment to proceed in the national interest of protecting Ireland's food supply chain.
